

Paramount Consulting Group Partners with Nationwide Under Parent Company UAA

PCG has joined forces with our parent company, United Advantage Agency (UAA), in an effort to bring the best products, service, and pricing in the health benefits industry to our brokers and their clients. This joint venture includes an exciting new partnership with Nationwide Mutual Insurance. Moving forward, Nationwide will act as our new stop-loss carrier.

Brokers working with United Advantage Agency will now be able to sell NEB products along with the level-funded plans Paramount Consulting Group previously offered. A complete suite of ancillary products is now available in addition to our level-funded health benefits plans, bringing more opportunities to our brokers and plan utilizers.

UAA is committed to providing our brokers with new, innovative products and solutions featuring quick, easy access that allow for more opportunities of personal success and growth. With this, we are introducing incredible new plan designs, a thorough marketing program, and several other great features we are very excited to share in the coming days and weeks.

A new website, plans, and incentives will be announced within the next few days through email and social media. Stay tuned for further updates from United Advantage Agency!

United Advantage Agency has been in business since 1984 and is headquartered in Texas.
